

EDUCATION PIPELINE

DR. GWEN WARNIMENT, DEPUTY SECRETARY

1:00 P.M.

Dr. Warniment will discuss the current and future initiatives that support students on the journey into the education workforce. Speaking about building strategic investments, structural supports, and a deliberate, planned approach to the ecosystem, she will ask school counselors to help envision and unpack how to reimagine the profession. How do we speak of the work so that youth are interested and invigorated by the possibilities? How does this help nourish our own work?
